

Paper Title: Tolerating Inconsistency in Feature Models
Discussant: Mougenot

- Which issues about consistency this paper addresses?
 - Finding the less critical inconsistencies we can live with.

- What is the main novel contribution/approach of the paper?
 - The reconsideration of the consistency constraints, rather than trying to resolve the inconsistencies at all costs.

- Do you see any problem with the approach/contribution of the paper?
 - The way the developers chose the priority has inextricable implications. Can they really make a wise choice in this context ?

Paper Title: Tolerating Inconsistency in Feature Models
Discussant: Mougénou

- What would you suggest to improve the paper's contribution?
 - Multi-criteria speed evaluation: What really matters to performances.
